PRICING OF DERKSEN'S PORTABLE SHELLS &
ENTERPRISE SUPERCENTER'S FINISHED CABINS

Planning the Process

Allow Us To Help You

DREAM

DESIGN

BUILD

Pillars of Success

You are invited to select one of our popular models or we can sit down with you and custom design your dream before your eyes.

It generally takes between 4 to 6 months, from start to finish, to complete a cabin, depending on size. Delivery day is our most exciting day!

We order your shell from Derksen and have it delivered to you direct or to Enterprise Super Center for custom interior finish out.

If we are going to build out your unit, it will be assigned to one of our professional crews that will work with you personally through complete program.

Converting Derksen Portable Storage Units To Livable Tiny Homes Or Cabins

Price List

This is our price list. It demonstrates the different phases that you could purchase your unit.

Continue clicking to discover what each column represents.

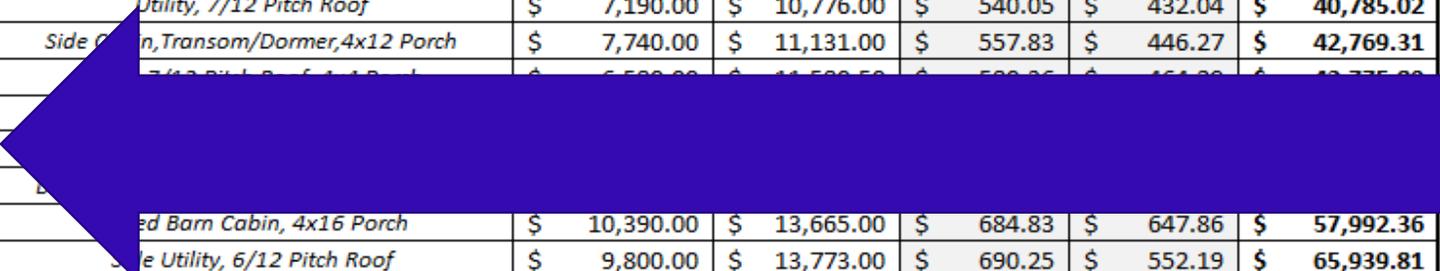

Our clients have the option to customize their cabins and this can vary the actual final cost of your cabin. We also allow clients to stop us in the build out process at any time, if they feel that they can finish the unit on their own. You would just pay for the services rendered to that particular point and we will deliver and set up your unit on your property.

If you are wanting to purchase one of our shells and you want the factory upgrades, explain in a previous document, that make the shell ready for interior cabin build out, then this is the proper column for pricing.

These upgrades include custom designing, higher pitched roof, felt under roofing, house wrap, hurricane straps & anchors, ¾" life-time sub-flooring, thermal pane windows, etc.

Our clients have the option to customize their cabins and this can vary the actual final cost of your cabin. We also allow clients to stop us in the build out process at any time, if they feel that they can finish the unit on their own. You would just pay for the services rendered to that particular point and we will deliver and set up your unit on your property.

Converting Derksen Portable Storage Units To Livable Tiny Homes Or Cabins

If one of the shells we have designed is what you would like along with the upgrades from the factory and you wish to purchase by Rent-To-Own, these next two columns give you the 36 monthly or 60 monthly payment amounts. Most cabins will require a deposit and your first month's payment to place your order.

We also have bank financing available through Classic Bank Of Giddings.

Our clients have the option to customize their cabins and this can vary the actual final cost of your cabin. We also allow clients to stop us in the build out process at any time, if they feel that they can finish the unit on their own. You would just pay for the services rendered to that particular point and we will deliver and set up your unit on your property.

If you would like Enterprise Super Center to complete the entire interior finish out and possibly furnish appliances, this is the proper column for pricing. We allow you to select desired finishes if we have not already installed them.

To completely finish out a cabin from start to finish takes roughly 4 – 6 months.

There is free delivery from this lot up to 50 miles. After 50, there will be an additional fee.

Our clients have the option to customize their cabins and this can vary the actual final cost of your cabin. We also allow clients to stop us in the build out process at any time, if they feel that they can finish the unit on their own. You would just pay for the services rendered to that particular point and we will deliver and set up your unit on your property.

Suppose you happen to visit our lot in Giddings and discover:

1. A cabin under construction without an owner at the time
2. Construction has started on the interior of this actual cabin shell
3. You would like to purchase as is and finish the rest yourself. Check with sales team to find out what has been spent to this point and you can purchase and take over.

Our clients have the option to customize their cabins and this can vary the actual final cost of your cabin. We also allow clients to stop us in the build out process at any time, if they feel that they can finish the unit on their own. You would just pay for the services rendered to that particular point and we will deliver and set up your unit on your property.
