The buildings on our lot are models of popular styles and sizes. Each building can be purchased as seen as our models, or purchased altered to suit the customer's needs! Please ask our sales team for more information on other custom options. Prices are subject to change on Safeguard Metal's terms, or due to any alterations made from the original styled building.

*Safeguard has 13 color options from which to choose. Roof, trim, siding, and wainscot, if applicable, colors can be altered and viewed via colored metal samples, or via building configuration.

** Standard metal gauges are as follows: 29 gauge skin and 14 gauge framing.

*** The option is available for upgrading the outer skin to 26 gauge and the framing to 12 gauge. In high wind areas, this is highly recommended.
