IS RENT TO OWN THE BEST OPTION FOR YOU?

A RENT TO OWN program gives you the opportunity to have the unit needed now while you may be repairing your credit score.

✅ NOT Bank
Financing

✅ NO Credit Check

✅ Most Units DO
NOT require a
deposit

✅ Choose the Best
Rental Period
Option for You

UNDERSTANDING THE ADVANTAGES OF OUR RENT TO OWN PROGRAM

- It is NOT Bank Financing – You are simply renting a desired unit for the ultimate purpose of owning it at the end of a pre-planned contractual pay period.
- There is NO Credit Checking. If you have a valid driver's license, a couple of personal references, you then qualify with only your signature.
- Most units DO NOT require a deposit to order, just a first month's payment. Larger units could require an additional deposit.
- The unit you need will be delivered to your property, setup and leveled for your immediate use.
- Your payment amount is locked in and cannot change throughout your entire program.
- Your monthly payments can be made personally by mail, computer or through automatic draw from your personal bank.
- A RENT TO OWN program gives you the opportunity to have the unit needed now while you may be repairing your credit score.
- If your RENT TO OWN unit is for business purposes, those monthly payments can be tax deductible.
- Rental periods can be set up for 36 months, 48 months or 60 months and you then own the unit at the end of that planned pay period.
- You can choose to fast track your payments or even pay off your unit early without any added interest or any penalty charge added.
- If for any reason your personal financial circumstances change and you no longer want or can afford your unit, you can simply call us and request to unit to be picked up. This will not affect your credit in any way.
- Set up and launching a RENT TO OWN program for you takes only minutes to accomplish. Any one of our professional sales team can help you by phone or you can visit us in person. We would love to meet you and help you get the unit that will meet your needs.
